

Socket Set 3/8"D 17pc

Complete set of Bi-Hex (12pt) 3/8"D sockets in a useful range of sizes from 8mm to 24mm. Bi-Hex head provides 12 points of potential contact making it quicker and easier to seat the socket over most types of fastener, including square-head nuts and bolts. The size is engraved on each socket for easy identification. A quality set manufactured from satin finish chrome vanadium supplied on a socket rail for convenient storage and easy tool access.
