

Brake Caliper Rewind Tool

A set of brake caliper rewind tools for vehicles with left hand threaded brake pistons.

Additional Information

- Fixed 2 pin drive.
- For vehicles with left handed threaded brake pistons. (Right hand thread adaptor available - Part No. 2828).
- Citroën C5: The right hand front caliper has a left handed threaded front caliper whilst the left hand caliper has a right handed threaded caliper. Both use a K1 adaptor, included in this set.
- Renault Master Van: Both front calipers require the use of the left handed threaded screw and reaction nut plus K2 adaptor.
- Ideal for Citroën C5 and Renault Master Van.
