

Chain Cleaning Brush

A universal chain cleaning brush with adjustable heads for fine and heavy gauge chains. Suitable for use on motorcycle and bicycle chains this brush is ideal for removing dirt and grime in preparation for lubrication.

Additional Information

- For cleaning both motorcycle and bicycle chains.
- Adjustable cleaning heads allow the brush to be used on different gauge/speed chains. Easy to remove heads for cleaning and replacing.
- Innovative design. Three sided brush makes easy work of cleaning the chain, whilst the long brush can be used for cleaning sprockets and chainrings.
- Spare brushes available, please see Laser Part No. 0892.
