

Antifreeze Tester - Ethylene Glycol

Easy to read hydrometer, designed for modern Ethylene Glycol antifreeze. Also suitable for use on Organic Acid Technology (OAT) antifreeze.

Additional Information

- Number of floating discs measures the level of coolant protection.
- Tests at hot and cold temperatures; reads in celsius and fahrenheit.
- Floating orange disc shows over protection and loss of efficiency. Bulb is Black with 6 coloured discs.
- Manufactured from Polycarbonate (PC), with a PVC hose & bulb.
- For the Propylene Glycol Antifreeze Tester, please see Laser Part No. 4292.
