

Timing Tool Set - for Ford Zetec

Designed for the popular Ford Zetec DOHC petrol engines across the Ford, Mazda and Volvo ranges from 1998 to 2015. The 4347 kit provides the main camshaft and crankshaft locking tools for both the belt and chain driven derivatives of these engines from the 1.25L to 2.3L engine variants.

Additional Information

- This new camshaft setting bar updates the existing Laser kit 3096 and is suitable for all the same applications.
- Also included in the kit is 303-748 (21-259) for Focus, C-Max 1.4 and 1.6L Fiesta and Fusion 1.2, 1.4 and 1.6L.
- Also used on Volvo models with 1.8 and 2.0L camchain engines.
- Made in Sheffield.
- Camshaft Locking Strap now includes OEM 303-376B.
