

High Vis Air Line Whip/Leader Hose 600mm x 10mm

The Health and Safety Executive recommend the use of a flexible hose between the air tool and a quick coupling to isolate the tools vibration.

Additional Information

- 600mm x 10mm core.
- Highly visible for extra safety.
- 1/4" BSP fitting and a quick 1/4" BSP coupler.
- The hose is recommended to work at 300psi.
- Isolates the tools vibration.
