

Mechanics Brush Set 5pc

This comprehensive cleaning set includes five specialist brushes chosen to deliver excellent automotive and bike cleaning. The set has two large brushes with soft, non-marking bristles that are perfect for cleaning bodywork and alloy wheels whilst the range of smaller brushes are ideal for detailed and intricate cleaning of gear wheels, chains, grill vents and wire wheels. The full set includes a wide bodywork brush, alloy wheel brush, round detail brush (head diameter), spiral wire brush and a handled short head brush. Cleaning is easier, quicker and better with the right brush making this set a very useful addition to the automotive workshop.
