

Impact Tamperproof Spline Socket Bit Set 1/2"D 8pc

A set of eight 1/2"D tamperproof impact sockets from M12 to M18 in both short and long lengths. This set is designed for use with impact tools for the fast and safe adjustment of spline fixings. The low-profile (45mm long) bits are ideal for use where clearance is restricted and the longer bits (78mm long) can reach deeper-set fixings. Supplied in a sturdy storage case to keep the sockets safe and organized.

Additional Information

- 1/2"D socket bits: M12, M14, M16, M18 x 45mm long; M12, M14, M16 and M18 x 78mm long.
- Tamperproof applications include VAG hubs, calipers, suspension and drain plugs.
- Impact quality chrome molybdenum with anti-corrosion black phosphate finish.
- Supplied in a blow mould storage case.
- Long set also available. Please see Laser Part No. 6749.
