

Wash Brush 1.8m - 3.2m Extending (Flow Through) CD 6

Heavy duty flow thru water fed brush with extra long extending handle, ideal for cleaning larger vehicles, conservatories, decking, caravans, PSV, windows and more. The angled wide-head brush has super soft, non-marking bristles to loosen dirt and debris effectively whilst the continuous flow of water washes the dirt away for faster cleaning. The twist and pull telescopic handle is easy to adjust to length from 1.8m to an impressive 3.2m. The wash brush has a quick connector hose attachment with an on/off valve for controlled water usage, perfect for cleaning large, heavily soiled areas.

Additional Information

- Heavy duty, flow thru water fed wash brush for fast, efficient cleaning with on/off valve on the handle for controlled water usage.
- Extending extra long reach handle with an easy twist & pull telescopic action; length range: 1.8m - 3.2m.
- Brush head size: 300 x 150mm, loaded with super soft, non marking bristles.
- Strong, light aluminium handle reduces fatigue when used for long periods.
- Shorter length extendable brush available, see Laser Part No. 3874. Replacement brush head available, see Laser Part No. 60258.
