

Funnel 80mm - Red

Small fixed spout funnel, 80mm, supplied with screw-fit end cap and lid to prevent oil contamination. Manufactured from sturdy composite material with a non-spill rim to reduce splash-back for a cleaner refill. Light and compact, for easy carrying and storage, ideal for topping up motorcycles and small engines.

Additional Information

- Compact funnel with non-spill rim. Ideal for motorcycles and small engines.
- Complete with cap and lid to prevent oil contamination and keep the work place clean.
- Diameter: 80mm; overall length 230mm; spout diameter 15mm to 8mm.
- Red composite material (PE) 1mm thick.
- Larger funnel also available. Please see Laser Part No. 5428.
