

Funnel 100mm Red

Red flexi-spout funnel with a diameter of 100mm, supplied with screw-fit end cap and lid to prevent contamination. Manufactured from an easy-clean composite material with a handle and non-spill rim to reduce splash-back for a cleaner refill. Colour-coded for oil, making it easy to identify the right funnel for the job.

Additional Information

- Flexi-spout funnel in red with non spill rim & handle.
- Complete with cap and lid to prevent oil contamination and keep the work place clean.
- Diameter 100mm; overall length 435mm.
- Red polypropylene material (PP) 1mm thick. Complies with REACH & PAHS.
- Funnel also available in black, please see Laser Part No. 5429.
