

Windscreen Nozzle Adjusting Tool - for Vauxhall

Windscreen washer nozzle adjusting tool, designed to fit and adjust the unique and difficult to access plastic washer jets that are situated underneath the bonnet. The angled profile handle allows you to get the four slotted head to the jets without causing damage to surrounding components.

Additional Information

- Applications: Vauxhall Astra J, Insignia.
- Ideal for difficult to adjust windscreen nozzles.
- Four slotted, angled profile.
- Manufactured from steel, with a PVC dipped soft grip handle.
