

Podger Spanner & Nail Puller 19mm x 22mm

Double-sided ratcheting podger spanner, with retractable nail puller. The tapered shaft provides easy alignment of component holes and there is a twin sided, 19mm and 22mm Bi-Hex (12pt) ratchet head for fast assembly. The spanner is precision engineered to ANSI and DIN standards and manufactured from chrome vanadium with a satin finish. A useful dual function tool, the tool head has a nail puller one side and a square, flat striking face on the other, ideal for scaffolding and building site use.

Additional Information
