

Gear Box Oil Filling Adaptor (only) - for VW Group 7

The DQ 200 series DSG gearbox does not have a specific filler port - in order to refill the gearbox the oil must be pumped in via the gearbox breather. The Laser 61997 has been designed to attach to the gearbox in the same way as the OEM adaptor for use with VW Group OEM pump system. Always refer to OEM instructions for oil type and capacity information.

Additional Information

- DSG DC 200 series dry clutch gearbox oil adaptor.
- Applications include: 1.2, 1.4, 1.8, TFSi, 1.5 Mpi & 1.6 Tdi.
- Used across the VW Group ranges.
- Equivalent to OEM VAS6262/4.
- Use with OEM ATF system. For fitment to Laser Part No. 4792 see Laser Part No. 8674.
