

Digital Multi-Function Tester

A portable multi-use meter for checking essential items on vehicles. Ideal for both workshop and home use as it allows for easy and rapid testing of tyre pressures, battery status and alternator function.

Additional Information

- 3 in 1 Multi-function Tester powered by micro processor.
- Includes tyre pressure gauge with function to record the readings. Selectable units: psi, bar or kgm.
- LED work light battery tester: low, mid, full.
- Alternator tester: low, charge, over-charge.
- Powered by 2 x AAA batteries (supplied). CE, UKCA & RoHS compliant.
