

Kneeling Mat with Work Light

Cushioned pad with integrated work lights, ideal for kneeling or as a head rest when working under a vehicle. Two rows of twelve surface mounted LEDs provide plenty of light when working underneath vehicles or in dull conditions, and are powered by 3 x AA batteries (not supplied). Manufactured from thick 30mm closed-cell foam, with cut out carry handle, the pad is water and oil resistant. Compact design for easy boot storage, ideal for breakdowns, wheel changing and general workshop use.
