

Air Conditioning Service Tool - for Mercedes-Benz

Mercedes-Benz air conditioning service tool, used to remove and refit the receiver/dryer cartridge in the air conditioning condenser - an essential tool when servicing or opening up the A/C system.

Additional Information

- Applications include: Mercedes-Benz W203 (2001 - 2007, C-class), W209 (2003 - 2009 CLK-class) and R171 (2005 - 2011 SLK-class).
- Equivalent to OEM 203 589 001 000.
- 1/2"D x 27mm external hex x 65mm long.
- Manufactured from S45C steel with black phosphate finish, with a detent hole for a more secure fit on the wrench.
- The receiver dryer cartridge should be replaced every couple of years on all cars but particularly when the A/C system has been opened up or is about to be refilled.
