

Caliper Hooks 2pc

A pair of S-shaped brake caliper support hooks, designed to safely hold the brake caliper out of the way during a variety of brake servicing tasks including the replacement of discs and pads.

Additional Information

- S-hooks 6mm x 200mm length.
- These support hooks prevent the weight of the caliper damaging or stressing the brake pipes.
- They can also be used for hanging test equipment such as diesel leak back bottles, bleed bottles etc.
- Vinyl dipped finish to avoid damage.
- Ideal for many uses during car service.
