

Long Impact Tamperproof Spline Socket Bit Set 1/2"D

A set of long tamperproof impact Spline socket bits in a range of sizes from M5 to M18. The generous 78mm depth gives better access to hard-to-reach fixings that cannot be adjusted with a conventional set. Heavy-duty bits manufactured from chrome molybdenum for strength and durability with a black phosphate finish for improved corrosion resistance. Supplied in a fitted blow-mould storage case to keep the bits safe and organised.

Additional Information

- 1/2"D x tamperproof socket bits x 78mm long: M5, M6, M8, M10, M12, M14, M16 and M18.
- Longer length ideal for accessing deep-seated fasteners.
- Impact quality chrome molybdenum with anti-corrosion black phosphate finish.
- Supplied in a blow mould storage case.
- Standard set also available. Please see Laser Part No. 5273.
