

Timing Chain Locking Kit - for PSA, BMW 1.4, 1.6 Petrol

A complete engine timing kit designed to allow the timing to be set and checked on the 1.4 and 1.6L engines found in the BMW, MINI and PSA ranges. Engine codes covered include N12, N13, N14, N16 and N18 for BMW and MINI and EP3, EP6 for Citroën or Peugeot. Includes the digital angle gauge (inclinometer) recommended by PSA for checking the chain wear in-situ.

Additional Information

- This kit brings together the locking bridges and mounting feet for all versions of the 1.4 and 1.6L PSA and BMW chain driven petrol engines.
- Engine codes covered: N12, N13, N14 and N18 fitted to BMW (1 and 3 series) and MINI, plus Citroën, DS and Peugeot EP3 and EP6.
- The kit includes an inclinometer (Laser Part No. 6657) as recommended by Citroën and Peugeot for checking the VVT mechanisms and chain stretch.
- Made in Sheffield.
- EU Registered Design.
