

Double Jointed Flat Nose Pliers 340mm

Flat nose, double jointed pliers for deep-seated, restricted access applications. The compound joint mechanism means the jaws open to a full 48.5mm, with minimal handle movement, whilst the thin profile and 340mm long reach are, ideal for reaching deep set fixings e.g. engine bay maintenance. A professional quality tool with flush rivets for strength and dipped handles for excellent grip and comfort.

Additional Information

- Length: 340mm.
