

Front Wheel Bearing/Disc Adaptor - for Ford Transit

Front wheel bearing /disc assembly removal adaptor kit for Ford Transit (from 2013).

Additional Information

- Applications: RWD Ford Transit front wheel bearings: late models (from 2013).
- Allows the safe removal of the front wheel bearing and disc assembly from the later RWD Ford Transit model (from 2013) where there is no centre hole through the bearing and therefore a standard force screw arrangement cannot be used.
- Also allows the separation of the disc from the bearing.
- Made in Sheffield.
- Designed to be used in conjunction with Laser 7109; replacement threaded bar available - please see Laser Part No. 1727.
