

T-Handle Double End Screwdriver Set 12pc

T-handle screwdriver set with 10 double ended, interchangeable blades in Phillips, Flat, PzDrive, Hex & Star* profiles with a fast spinning sleeve. The T-handle can be slid to one side for high torque transmission from hand to fastener, or centred to spin on or off quickly, particularly useful for loosening seized screws and speeding up repetitive jobs like removing or replacing cam cover bolts. The extra-long reach (175mm) is ideal for hard to access areas and the spinner sleeve can also be removed when space is really tight. The T-handle bit holder features a quick-lock release mechanism and the drivers have magnetic tips in blacked S2 steel. A comprehensive set, packed in a fitted foam tray designed to fit tool drawer boxes for safe and organised storage.

Additional Information

- Flat: 4 x 6mm, 5 x 7mm. Phillips: Ph1 x Ph2. PzDrive: Pz1 x Pz2.
- Ball End Hex x Hex: 4, 5, 6mm. Star*: T10 x T15, T20 x T25, T30 x T40.
- Blade length: 175mm.
- T-handle screwdriver with spinning sleeve for fast release, with quick lock/release bit holder.
- Manufactured from Chrome Vanadium with an aluminium sleeve & S2 steel bits. Presented in an EVA foam tray convenient for user storage and limiting packaging waste.
