

Motorcycle Fork Damper Rod Holding Tool 13.3mm

Motorcycle fork damper holding tool 13.3 to 14.3mm. Use with Laser 6353 fork spring compressors.

Additional Information

- This holding tool is used in conjunction with the Laser Part No. 6353 - Fork Spring Compressor.
- Designed to slide in under the damper rod nut to hold the spring down and allow the nut and fork cap to be separated.
- Double ended 13.3mm and 14.3mm.
- Used to assist in fork service and repair.
- Use in accordance with fork manufacturers instructions.
