

Fuel Injector Puller Kit - for BMW, MINI Petrol Engines

This injector puller kit is used to extract and fit the plastic bodied petrol injectors used on some BMW and MINI engines. It has been designed to reduce the chance of damage to the injectors while removing them.

Additional Information

- Applications: across the BMW range (from 2012), across the MINI range (from 2015).
- Engine codes: B38 (1.2L and 1.5L), B48 (2L) & B58 (3L).
- Equivalent to OEM numbers 2 358 417 and 2 358 022.
- For injector seal replacement, please see Laser Part No. 7085.
- For engine timing kits on B38, B48 & B58 engines, please see Laser Part No. 7242.
