

Rechargeable Heat Shrink Tool Set

Heat shrink tool kit featuring a rechargeable flame-free heat tool that provides a gentle, even heat for consistent results every time. The tool is light and easy to use with a bright LED task light for improved visibility in low light areas. The lithium battery is charged via a USB port for quick charging and a long battery life. A wide selection of tubing from 2mm to 9mm diameter is also included as well as a stand, USB cable and nozzle cover to protect the tool when not in use. A useful kit for professional wiring insulation repair and maintenance work.
