

Automatic Wire Stripper With Voltage Detector

Automatic wire stripper with voltage detector & stainless-steel cutter/crimper. The automatic wire stripper produces precise results quickly and easily every time, for wire sizes from 10 – 30 AWG, whilst the crimp function is colour coded for easy identification. The jaw head is spring loaded for ease of use and the handle has rubber inserts for comfort and grip. A quality tool that saves time and effort when undertaking all types of wiring work with visual and audible voltage detection, with auto switching to prevent battery discharge.

Additional Information

- Stainless steel wire cutter (cuts 10 - 30 AWG). Crimps non insulated terminals.
- Auto switching prevents battery discharge.
- Non contact voltage detector 12-250v AC.
- Visual and audible voltage detection.
- Powered by 2x LR44 button cell batteries (included).
