

Double Ended Flexible Magnetic Pick Up Tool

Extra-long, double ended, flexible magnetic pick up tool, offering a choice of two head sizes, 7.5mm and 9mm and lift strengths, 0.6lb and 1.2lb in one tool. The flexible shaft is 1100mm long, designed to reach the most inaccessible, deeply-set areas and is covered in a protective rubber sleeve. A useful tool for retrieving components, nuts and bolts from engine bays and other restricted areas.
