

Coolant Thermostat Key - for VAG

The newer, post 2013 VW Group TSi petrol engines require a special 4 pin tool to remove the waterpump thermostat without damage. The Laser 7883 is a simple to use 3/8"D, 4 pin key designed to allow removal and installation of the thermostat fitted to these engines.

Additional Information

- 3/8" Drive coolant thermostat removal key for VW & Audi.
- Applications include: VW Group 1.0L 3 cyl., 1.2L 4 cyl., 1.4L 4 cyl TSi petrol engines & 1.4 TDi (from 2013).
- Equivalent to OEM T10508.
- Manufactured from carbon steel (S45C).
- For removal & installation of the waterpump thermostat. NOTE: Use in accordance with OEM instructions.
