

Poplock Quick Release Extension Bar 24" 1/2"D

Poplock quick release extension bar provides access & locks socket in security position when working in restricted areas.

Additional Information

- Poplock locking mechanism allows the socket to be locked to the extension preventing annoying and possibly damaging loss of the socket, particularly important when working in areas of restricted access.
- Quick release allows quick & easy change of socket.
- 1/2" Drive with 11mm Hex drive; length: 24 inches (610mm).
- Complies with DIN standards.
- Manufactured from Chrome Vanadium with matt finish.
