

Lockout Bag

High visibility safety lockout bag with lockable strap to prevent unauthorised access. Ideal for locking away vehicle keys, EV MSD's (Manual Service Disconnect switches) etc. to ensure accidental activation of high voltage systems is not possible.

Additional Information

- Size: 440 x 245mm.
- Made from wear resistant polyester cloth.
- PVC inner material to prevent accidental damage to contents.
- Use with a lockout safety hasp - see Laser Part No. 7942, or safety padlock - see Laser Part No. 6641 (38mm shackle) or Part No. 7943 (76mm shackle).
- The use of lockout tag is also recommended - please see Laser Part No. 7941 (pack of 10).
