

Safety Barrier 4 Posts & Chain

These red and white high visibility safety posts and long chain are designed as an effective way to mark out restricted areas both inside and temporarily outdoors.

Additional Information

- 4 plastic posts with hollow bases which can be filled with water or sand.
- Post height: 850mm, diameter: 40mm; manufactured from PP material.
- 4 x octagonal bases, size: 285 x 285mm. Base includes removable plug to easily fill & empty. Manufactured from PE material.
- 6mm x 6.5m chain, with 10 'S'-hooks to secure to post caps; manufactured from PE material.
- Ideal for workshop use to cordon off areas for safety, including when working on hybrid/EV vehicles (note: only fill with sand if using when working around electricity). Also perfect for enforcing social distancing.
