

Air Suspension Pressure Valve Socket - for VAG

The air suspension system fitted to the Audi, Porsche and VW models listed has a small air control valve fitted on top of each suspension strut. The Laser 8093 is designed to fit this valve and allow removal.

Additional Information

- 2 pin, 1/4" drive castellated air valve socket.
- Applications include: Audi Q7 (2002 - 2010), Porsche Cayenne (2003 - 2010) and VW Touareg. Equivalent to OEM T10158/1.
- Removal of the air pipe is required first to gain access to the valve.
- Manufactured from chrome vanadium with black finish.
- When working on air suspension systems, always follow vehicle manufacturers instructions.
