

Workshop/Vehicle Safety Kit - Add-on Upgrade

An kit of additional hybrid/EV products, including warning signs and disconnect shut down timer, specifically selected to enhance both the existing Hybrid Workshop (Part No. 6769) and Hybrid Vehicle (Part No. 6770) Safety Packs.

Additional Information

- Disconnect and shut down digital timer used to accurately measure the required shut down period between switching off the ignition and disconnecting or reconnecting the vehicle's battery etc. Particularly important where airbag, BSI, hybrid and electric vehicle ECU's need time to shut down before proceeding with further work.
- Electric Shock First Aid Poster, explaining the precautions when dealing with electric shock victims. Size: 590 x 420mm.
- A pack of 12 reusable, self adhesive high voltage labels (150 x 75mm) for indicating high voltage parts of the vehicle. High voltage sign to inform employees/customers of high voltage risk.
- Three different types of warning signs - floor standing hybrid/EV warning signs (2pc), double sided high voltage warning sign & pack of 10 hybrid/EV warning signs hangable on rear view mirror or steering wheel.
- All products contained in this kit are available as individual items - please see Laser Part Nos 7477 (disconnect shut down timer), 7521 (floor standing warning signs), 7561 (self adhesive labels), 7574 (double sided warning sign), 7575 (electric shock poster) and 8049 (hybrid/EV warning sign, pack 10).
