

Multi Mount Soldering Stand

Designed to hold components while soldering and repairing them. It features a magnifying glass together with a magnetic base and suction cup for holding it in place, and can be used for a multitude of tasks in the workshop.

Additional Information

- Helping hand soldering stand with magnifying glass, suitable for holding components & wires for soldering.
- Features two metal clips with soft grip protection & magnifying glass, each fixed to a highly flexible arm.
- The helping hand can be held in place by the strong magnetic base, suction cup or using a bench vice.
- Ideal for a wide range of uses, from automotive & electrical to jewellery, hobbies, arts & crafts.
