

Rear Main Crankshaft Oil Seal Installer - for Isuzu

Designed to ensure the correct fitment of the rear crankshaft oil seal on the 3.5 tonne Isuzu truck diesel engines as used on N-Series, D-Max and Trooper models.

Additional Information

- Engine applications include: 4JK1 (2.5) 4JB1 (2.8L), 41JG1 (3.1L) and 4JH1 (3.0L) (130 to 140 HP engines).
- Vehicle applications include: N-Series trucks, D-Max and Trooper.
- Equivalent to OEM refs: EN-50351 and 5-8840-2359-0. Designed to fit OEM seal numbers: BZ4962-E & 8-97071-561-1.
- Manufactured from carbon steel.
- Designed to ensure the seal is pulled in square to reduce the potential for seal lip damage during installation. NOTE: Use in accordance with OEM instructions.
