

Scarab Plier Set 2pc

This 2pc set of removal tools combines a pair of automotive relay and blade type fuse pliers, which feature narrow hooked jaws to allow access to tightly packed fuse boxes, with a pair of trim clip pliers which allow for the removal of tight or broken trim clips and fixings. Both feature a compact handle and spring-loaded scarab type jaws allow for one-handed use and easy access in tight spaces. EU Registered Design.

Additional Information

- Includes: Relay & fuse removal tool (Part No. 8269). Trim clip removal tool (Part No. 8270).
- Spring-loaded scarab type jaws that allow for one handed operation.
- Soft grip handle designed to sit in the palm with finger operated levers.
- Small, compact design for easy access in tight areas.
- Manufactured from carbon steel, with Chrome Molybdenum jaws & PVC handle. EU Registered Design.
