

Non-Slip 'Cubic' Tip Bit Set Ph2 15pc

Set of 15 Ph2 screwdriver bits that feature an anti-slip pattern (made up of tiny cubes) on the tip to ensure a better grip on the screw face and to avoid damaging the head of the screw. Designed to fit a standard 1/4"D bit holder this set is ideal for use in a workshop or by a contractor.

Additional Information

- Specially designed cubic patterned anti-slip tip provides a stronger grip, preventing slippage & holds the screw securely.
- All bits one size: Phillips Ph2.
- Length: 25mm, with 1/4"D shank.
- Manufactured from impact grade S2 steel with a sandblast finish.
- CUBIC = a non-slip pattern made up of tiny cubes.
