

Universal Joint Set Spring Loaded 3pc

This 3 piece spring loaded universal joint set, comprising of 1/4", 3/8" & 1/2" drive joints, has been designed to make them easier to fit on to sockets and offer up to fasteners. Their low profile design allows them to be used in confined spaces, making them ideal for use in engine bays and under dashboards, and the springs also help to prevent the joint becoming loose with age and wear, meaning that they will continue to be easy to handle.

Additional Information

- Sizes: 1/4"D, 3/8"D, 1/2"D.
- Low profile universal joint set, ideal for use in hard to reach spaces.
- Spring loaded, making it easier to attach to sockets & use, preventing the joint from becoming loose.
- Manufactured from chrome vanadium with a polished finish; hardness of 38-46 HRC.
- Presented in an EVA foam tray convenient for user storage and limiting packaging waste.
