

Rubber Brake Bleed Nipple Adaptor

Manufactured from flexible, brake fluid resistant rubber, this product has been introduced as a replacement bleed adaptor for the Laser range of bleed bottles and vacuum bleeders. Ideal to convert an existing vacuum pump into a temporary bleeding device.

Additional Information

- Rubber brake and clutch bleed nipple adaptor; fits hose diameters: 4 - 8mm.
- Designed to fit snugly over the bleed nipple and allow connection to any suitably sized hose.
- Use with one man bleed hose, including Laser Part Nos. 6820 and 7700; or with a plain bleed hose, Part No. 6819.
- Can also be used as replacement adaptor for the bleed hose found in Part No. 6783 (brake bleeder wrench set) and Part No. 6592 (bleed catch bottle).
- Replacement adaptor for Laser vacuum bleeders, Part Nos. 3752, 5697, 5780, 6285, 6534 and 8003. Also fits Gunson Eezibleed vacuum bleeder, Part No. 77021.
