

Hose Clamp Pliers - Multi Directional

Multi-direction hose clip removal pliers suitable for use on awkwardly placed ring type and flat band style spring loaded hose clamps and clips. The large capacity and wide circular opening allows for them to be used around a hose to undo the clamp without needing to force it around to somewhere that it can be easily accessed by regular hose clamp pliers.

Additional Information

- Jaw capacity: 0 - 127mm. Length: 350mm. Fit around hoses up to 50mm in diameter.
- The waffle grooves allow a firm grip to the clamp without the need to align the pliers.
- The special design allows the mechanic to easily rotate and remove the hose clamp.
- Ideal for use in tight areas, can be used in multiple directions.
- Manufactured from Carbon Steel, with PVC dipped handles for comfort.
