

3-in-1 Riveter, RivNut & Reaming Tool

This robust multifunction tool combines a rivet gun, capable of installing both pop rivets and rivnuts/nut rivets, with a reamer/nibbler tool suitable for use on stainless steel, galvanised steel and aluminium. It comes supplied with 2 different reaming mandrels, suitable for cutting curved and square edges. RivNut mandrel sizes include M3, M4, M5 and M6, together with colour coded rivet heads suitable for fitting 2.4, 3.2, 4.0 and 4.8mm rivets. It also features soft grip handles allowing for easy one handed operation along with a 360° swivel head for ease of access.

Additional Information

- 3-in-1 rivet, rivet nut and reaming tool, allowing one handed operation, with 360° swivel action head.
- 4x rivet heads, suitable for: 2.4, 3.2, 4.0 and 4.8mm rivets which are stored in the handle for easy access and selection of correct size.
