Digital Thermometer

A pocket sized digital thermometer ideal for checking air conditioning performance. It features a stainless steel probe with an easy-to-read digital display, measuring in both Celsius and Fahrenheit. It includes functions to display both minimum and maximum temperatures, a data hold button allowing the measurement taken to be viewed when the probe has been removed, together with an over-range indicator to warn when the maximum range of the thermometer has been exceeded. Manufactured from ABS plastic, with a stainless steel probe.

Additional Information

- Compact digital thermometer with stainless steel probe, protective shroud and pocket clip.
- Measuring range: -40°C to +250°C (-40°F to +482°F). Length: 148mm.
- Functions include: max/min memory, data hold, over range indication, automatic power off.
- Ideal for checking automotive air conditioning output. Domestic use for checking food temperature (not oven safe).
- CE, UKCA & RoHS compliant.
