

Telescopic Wheel Wrench 17 x 19mm, 21 x 23mm

This 1/2"D multi-function wrench features a fold out drive that can either be positioned to be used as a traditional cross type wheel brace, or as a breaker bar style wheel wrench when a greater leverage is required. It is supplied with two double ended sockets, with storage for one in the handle, plus a plastic bracket on the main shaft to hold the drive in place when not in use. Suitable for replacing the wheel wrenches supplied with modern vehicles and is ideal for keeping with the vehicles jack and spare wheel.

Additional Information

- Multi-function L-shaped and cross brace wheel wrench.
- Contains two double ended sockets: 17 x 19mm, 21 x 23mm.
- 1/2" drive extending wrench 367mm - 550mm; can also be used with any 1/2"D socket. Max torque: 200Nm.
- Wrench manufactured from A3 steel, with Chrome Vanadium sockets.
- ABS handle features a Thermoplastic rubber (TPR) grip for comfort, with internal storage for one socket.
