

Mini Plastic Scraper Chisel

A durable mini scraper made from a non-marring POM material for use on bodywork, trim and alloy wheels. The ergonomic handle features a stop collar designed to keep the blade at a 45 degree angle when pressed against a flat surface, helping avoid damage to painted surfaces when sliding the tip of the chisel blade underneath the trim, body mouldings, badges or wheel weights etc to be removed.

Additional Information

- Ideal for the easy removal of all types of body trim, including tyre weights and body panels.
- Blade width: 23mm; blade length: 52mm; total length: 154mm.
- The stop collar on the scraper handle keeps the blade at a 45° angle when laid down to avoid damage to painted surfaces.
- Manufactured from high grade POM (polyoxymethylene) plastic.
- The blade can be re-sharpened with a file.
