

Plastic Sump Plug Removal Tool - for Vauxhall/Opel 1.5

Designed to remove and fit the plastic sump plug (engine oil drain) found on the post 2019 1.5L diesel engines found in the Vauxhall and Opel ranges. The plastic sump plug fitted to these engines needs a special profile tool that combines a square and hex in one tool to ensure a good fit.

Additional Information

- Applications include: Vauxhall and Opel Astra K (from 2019) and Insignia B (from 2020).
- Engine applications include: LXD/F15DVC and LXD/F15DVH (CDTi and CRDi 1.5).
- Use with 17mm spanner or 3/8" drive ratchet.
- Used to remove and fit the plastic sump plug.
- To fit OEM part number 55512789, & Connect Part No. 30266.
