

Ball Joint Wrench Set - for Mercedes-Benz

A 2pc set of offset ball joint wrenches designed for the removal and installation of both the upper and lower ball joint nuts on Mercedes models fitted with double wishbone suspension set ups from 2015 onwards. Each of the wrenches features a Bi-hex crows foot ring that allows for the ball joint pin to be held in place.

Additional Information

- Applications: Mercedes-Benz models with double wishbone suspension from 2015 including: C class (2015 to 2021), E class (2015 to 2021), GL (2016 to 2021) and AMG GT (2019 to 2021).
- For loosening and tightening the upper and lower ball joint nuts.
- Upper nut: 32mm Across Flats; Lower nut: 38mm Across Flats. Bi-Hex (12pt). Note: the larger fixing is often described as 43mm Across Points.
- Low profile design, 1/2"D.
- Manufactured from S45C steel with black phosphate finish.
