

Brake Pipe Bender & Clamp Set

A pair of brake pipe bender tools for shaping both copper and cupro-nickel brake pipes in-situ on the vehicle, and are designed to be used with a standard 6mm hex key or a 1/4"D ratchet (not included). The set also includes two pairs of brake pipe clamps to enable the new pipe to be held next to the existing pipe, while still attached to the car, so that the replacement can be shaped to replicate the one that it's replacing.

Additional Information

- The set includes 2 x mini pipe benders, specifically designed for brake pipe.
- For use on copper & cupro-nickel brake pipe measuring 4.75 to 6mm (3/16" - 1/4") in diameter.
- Set also includes 2 x pairs of brake pipe clamps to help when forming & working brake pipe, for use with a standard 6mm hex key or a 1/4"D ratchet (not included).
- Use in conjunction with other Laser brake tools including Part Nos. 8520 (Brake Pipe Reamer), 7624 (Mini Ratcheting Brake Pipe Cutter) & 6728 (Brake Pipe Flaring Tool).
