

Wheel Locating Guide Set 12pc

This set of wheel locating guide pins has been designed to aid with the refitting of wheels on to cars and vans. It contains 6 pairs of colour-coded threaded locating pins which can be screwed into the wheel hub in place of the wheel bolt, this then allows for the vehicle wheel to be guided down the pins and into the correct position on the hub before the wheel bolts are used to secure the wheel in place. All supplied in a blow mould case for convenient storage.
