

Wing Cover Hybrid/EV Warning

A non-slip wing cover printed to serve as a Hybrid/EV warning sign, designed to inform employees and customers of the risks concerned with high voltage vehicles. Protects the paintwork from accidental marking or scratching whilst the vehicle is being worked on.

Additional Information

- Non-slip rubber backing.
- Designed to serve as a warning that vehicle is EV or Hybrid.
- Size: 900 x 600mm.
- Protects paintwork against damage when the vehicle is being worked.
- RoHS compliant.
